3RD GOVERNOR'S SUMMIT On Local Food & Agriculture

Montana 2026

Maximizing Montana's Agriculture Opportunity

The 2026 Summit - the first in a decade - will build a strategic roadmap to increase the percentage of Montana food purchased by Montanans from 3% to 33% by 2033.

The Summit brings together Montanans to celebrate progress made in Montana's food and farming, build networks, and develop action plans that strengthen the state's food supply chain.

Oct 23-24, 2026 | Helena, MT

Help shape the Summit and stay engaged.
