INDEPENDENT AUDITOR'S REPORT

We have audited the accompanying statement of financial position of Great Falls Development Authority, Inc., "the Authority" (a nonprofit organization) as of June 30, 2011, and the related statements of activities and changes in net assets, and cash flows for the year then ended. These financial statements are the responsibility of the Authority's management. Our responsibility is to express an opinion on these financial statements based on our audit. The prior year summarized comparative information has been derived from the Authority's 2010 financial statements and, in our report dated December 17, 2010, we expressed an unqualified opinion on those financial statements.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Great Falls Development Authority, Inc., as of June 30, 2011, and the changes in net assets and cash flows for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued a report dated November 15, 2011, on our consideration of Great Falls Development Authority, Inc.'s internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Great Falls Development Authority, Inc.'s financial statements as a whole. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is not a required part of the financial statements. The schedule of expenditures of federal awards is the responsibility of management and was derived from and relate directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

The Authority is a tax exempt organization as described under Section 501(c)(3) of the Internal Revenue Code (the "Code") and is generally exempt from income taxes pursuant to the provisions of Section 501(a) of the Code. The Authority receives funding from the City of Great Falls, Cascade County and businesses and residents of the region. The Authority earns additional revenue through certain loan programs and the provisions of grants and program economic development services under contract with various public and non-profit agencies.

The Authority has been certified as a Community Development Financial Institution ("CDFI") by the U.S. Department of Treasury. As a CDFI the Authority assists businesses, real estate developers and non-profit organizations with business and project planning, growth and modernization plans, and in arranging financial assistance. The Authority operates several loan funds in conjunction with the Economic Development Administration, U.S. Department of Commerce, and the U.S. Environmental Protection Agency. The Authority operates a sub-center of the Montana Small Business Development ("SBDC") program under contract with the Montana Department of Commerce. The Montana SBDC program is part of the national SBDC program administered by the U.S. Small Business Administration. The Authority also operates a satellite center of the Montana Procurement Technical Assistance Center ("PTAC") program under a contract with Big Sky EDA. The Montana PTAC program is part of the national PTAC program administered by the U.S. Department of Defense.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

- A. Basis of Financial Statement Presentation** – The accompanying financial statements of the Authority have been prepared on the accrual basis of accounting and have been prepared to focus on the Authority as a whole and to present balances and transactions according to the existence or absence of donor-imposed restrictions.

Unrestricted net assets represent those assets that the Authority may use at its discretion.

Temporarily restricted net assets result from contributions and other inflows of assets whose use by the Authority is limited by donor-imposed stipulations that either expire by passage of time or can be fulfilled and removed by actions of the Authority pursuant to those stipulations.

GREAT FALLS DEVELOPMENT AUTHORITY, INC.

NOTES TO THE FINANCIAL STATEMENTS

JUNE 30, 2011

Permanently restricted net assets result from contributions and other inflows of assets whose use by the Authority is limited by donor-imposed stipulations that neither expire by passage of time nor can be fulfilled or otherwise removed by actions of the Authority.

- B. Use of Estimates** – The process of preparing financial statements in conformity with generally accepted accounting principles requires the use of estimates and assumptions that affect the reported amounts of certain types of assets, liabilities, revenues and expenses. Such estimates primarily relate to unsettled transactions and events as of the date of the financial statements. Actual results could differ from those estimates.
- C. June 30, 2010 Financial Information** – The financial statements include certain prior-year summarized financial information. Such information does not include sufficient detail to constitute presentation in conformity with generally accepted accounting principles. Accordingly, such information should be read in conjunction with the Authority's financial statements as of and for the year ended June 30, 2010.
- D. Cash and Cash Equivalents** – For purposes of the statement of cash flows, cash and cash equivalents include time deposits, certificates of deposit and money market accounts, all with original maturities of three months or less.
- E. Promises to Give** – Contributions, including unconditional promises to give, are recognized as revenues in the period received. Conditional promises to give are not recognized until they become unconditional, that is, when the condition(s) upon which they depend are substantially met.

Contributions of assets other than cash are recorded at their estimated fair value. An allowance for estimated uncollectible pledges and contributions receivable is provided based upon management's judgment, including such factors as prior collection history, the type of pledge or contribution and the nature of the fund-raising activity.

Contributions and pledges received are recorded as unrestricted, temporarily restricted or permanently restricted depending upon the existence and/or nature of donor imposed restrictions.

Support that is restricted by the donor is reported as an increase in unrestricted net assets if the restriction expires in the reporting period in which the support is recognized. All other donor-restricted support is reported as an increase in temporarily or permanently restricted net assets depending upon the nature of the restriction. When a restriction expires (that is, when a stipulated time restriction ends or a purpose restriction is accomplished), temporarily restricted net assets are reclassified to unrestricted net assets and reported in the Statement of Activities and Changes in Net Assets as net assets released from restrictions.

- F. Accounts Receivable** – Accounts receivable include grants, contracts and other receivables and are reported at amounts management expects to collect on balances outstanding at year-end. Management provides for uncollectible amounts through a provision for bad debt expense and an adjustment to a valuation allowance based on

NOTES TO THE FINANCIAL STATEMENTS

experience and other factors which may affect the ability of debtors to meet their obligations to the Authority. Balances outstanding after management has used reasonable collection efforts are written off through a charge to the valuation allowance and a credit to accounts receivable.

- G. Loans Receivable** – Loans receivable are the result of the Authority's lending activities and are carried in the balance sheet at the amount management expects to collect on unpaid principal balances outstanding at year-end. Management provides for uncollectible amounts through a provision for bad debt expense and an adjustment to a valuation allowance based on past experience, known and inherent risks in the Authority's loan portfolio, adverse conditions that may affect the borrower's ability to repay, the estimated value of any underlying collateral, current economic conditions and other factors which may affect the ability of debtors to meet their obligations to the Authority. Balances outstanding after management has used reasonable collection efforts are written off through a charge to the valuation allowance and a credit to notes receivable. Interest income on notes receivable is recognized over the term of the notes and is calculated in accordance with the terms of the notes. Accrual of interest income is discontinued when management believes that, based upon current economic and business conditions and management's evaluations, the borrowers financial condition is such that collection of interest is doubtful. Interest income is subsequently recognized to the extent cash payments are received until such time as in management's judgment, the borrower's ability to make periodic interest and principal payments has been restored, in which case the loan is returned to accrual status.
- H. Furniture and Equipment** – Furniture and equipment are stated primarily at cost or, if donated, at the approximate fair value at the date of donation, less accumulated depreciation. Expenditures aggregating \$500 or more are capitalized and depreciated using the straight-line basis over the estimated useful lives of the respective assets ranging from five to ten years.
- I. Advertising** – The Authority uses advertising to promote its programs and activities. The production costs of advertising are expensed as incurred. Advertising costs totaled \$21,940 during 2011.
- J. Expense Allocations** – Expenses have been allocated amongst programs and/or services on the basis of actual benefit received and by estimates made by management.
- K. Income Tax Status** – The Authority is exempt from federal income tax under Section 501(c)(3) of the Internal Revenue Code. The Authority's tax returns for the years prior to 2008 are generally no longer subject to examination.
- L. Contributed Services and Materials** – Contributed services are reported in the financial statements for voluntary donations of services when those services: (1) create or enhance non-financial assets, or (2) require specialized skills provided by individuals possessing those skills and are services that would be typically purchased if not provided by donation. Donated materials are recorded at their fair value at the date of the gift.

**REPORT ON INTERNAL CONTROL OVER FINANCIAL
REPORTING AND ON COMPLIANCE AND OTHER
MATTERS BASED ON AN AUDIT OF FINANCIAL
STATEMENTS PERFORMED IN ACCORDANCE WITH
GOVERNMENT AUDITING STANDARDS**

We have audited the financial statements of Great Falls Development Authority, Inc.; (a non-profit organization) as of and for the year ended June 30, 2011, and have issued our report thereon dated November 15, 2011. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control over Financial Reporting

In planning and performing our audit, we considered Great Falls Development Authority, Inc.'s internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Great Falls Development Authority, Inc.'s internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the Organization's internal control over financial reporting.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Great Falls Development Authority, Inc.'s financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grants, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

We noted certain matters that we reported to management of Great Falls Development Authority, Inc. in a separate letter dated November 15, 2011.

This report is intended for the information of the Board of Directors, management, federal agencies and pass-through entities, and is not intended to be and should not be used by anyone other than these specified parties.

**INDEPENDENT AUDITOR'S REPORT ON
COMPLIANCE WITH REQUIREMENTS THAT COULD
HAVE A DIRECT AND MATERIAL EFFECT ON EACH
MAJOR PROGRAM AND ON INTERNAL CONTROL OVER
COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133**

Compliance

We have audited Great Falls Development Authority, Inc.'s compliance with the types of compliance requirements described in the OMB Circular A-133 Compliance Supplement that could have a direct and material effect on each of Great Falls Development Authority, Inc.'s major federal programs for the year ended June 30, 2011. Great Falls Development Authority, Inc.'s major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major federal programs is the responsibility of Great Falls Development Authority, Inc.'s management. Our responsibility is to express an opinion on Great Falls Development Authority, Inc.'s compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Great Falls Development Authority, Inc.'s compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of Great Falls Development Authority, Inc.'s compliance with those requirements.

In our opinion, Great Falls Development Authority, Inc. complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2011.

Internal Control Over Compliance

Management of Great Falls Development Authority, Inc. is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered Great Falls Development Authority, Inc.'s internal control over compliance with the requirements that could have a direct and material effect on a major federal program to determine the auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Great Falls Development Authority, Inc.'s internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

This report is intended solely for the information and use of the board of directors, management, others within the organization and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

**STATUS OF PRIOR YEAR'S RECOMMENDATIONS
FOR THE YEAR ENDED JUNE 30, 2011**

Finding #10-1

Condition: The bank turn-down letter was missing from one of four new EDA loan files reviewed.

Criteria: Federal loan requirements for EDA loans require documentation of a signed bank turn-down letter demonstrating that credit is not otherwise available.

Cause: Internal Control to assure loan file was complete, prior to funding, was not followed properly.

Effect: The loan file was incomplete until the bank turn-down letter was located and placed in the file.

Recommendation: We recommend the GFDA verify all needed documentation is obtained prior to issuing an EDA loan.

Response: GFDA loan policy and procedures were revised and approved by the Executive Committee and the GFDA Board in September, 2010. These new procedures clearly list in detail the compliance documents required by the different loan funds. Administrative staff is reorganizing all of the loan files to include a loan closing instructions checklist which details the compliance documents required for each loan fund. A pre-closing checklist is also included with individual tabs, and a breakdown of the documents included under each tab. We believe our new loan policy and procedures, along with the reorganization of our loan files will clarify the compliance documents required for each loan, and where to find those documents within the individual loan files. The loan file examined by the auditors had not been re-organized by administrative staff at the time of the audit.

Status as of June 30, 2011: The above finding was not noted while reviewing loan files during the current year audit.
